

## DP-2 Diving Support & Construction Vessel

Length Overall-----	103.15m
Length b.p.p-----	95.25m
Breadth Moulded -----	23.00m
Depth Main deck-----	10.00m
Depth Shelter deck-----	12.80m
Max draft midship (SWL)-----	7.00m
Max. Speed-----	12Kn
Main Engines/Generators-----	4 × 3860ekW
Stern Azimuth Thruster-----	2 × 2500kW
Tunnel thrusters-----	2 × 1800kW
Retractable Azimuth Thruster-----	2 × 1800kW
AHC Offshore Crane-----	150t
DP Class-----	DP II
Class-----	DNV-GL

The vessel is designed to the class notation “Clean Design” and SPS Code and high focus is given to low fuel consumption, which reduces emission to the environment.

**The vessel to be arranged with a 18 men (single) bell dive saturation system.**

In addition to diving, and construction work the vessel is arranged with 1 WROV’s and 1 Obs ROV with LARS in the hangar. The vessel can also perform normal field support duties.
