

NEWBUILD SPOT AVAILABLE FOR DP-1 FAST SUPPLY VESSEL

Rugged DP-1 Fast Supply Vessel

We are pleased to propose for sale a newbuild hull - 48m DNV-GL Classed, DP-1 Monohull Fast Supply Vessel (FSV) by first-class Shipyard with shipbuilding facilities in North America, South America & SE Asia.

The Vessel can be delivered in 10 - 11 months tailored to Owners requirements. Vessel design has been optimized to comply with the UT4000 Fast Supply Vessel specification within Pemex, Petrobras & Aramco requirements.

Vessel liquid capacities include **42,000** litres of ship's fuel, **90,000** litres of cargo fuel, **10,000** litres of ship's water and **88,000** litres of cargo fresh water.

These typical FSV's are equipped with an expansive **aft cargo deck of 225 square meters** of usable area rated for **3 tonnes** per square meter and a **total capacity of 250 tonnes of deck cargo including IMDG**. An additional **30 sq. meters** of cargo area is provided inside the main deck cabin, allowing for carriage of items out of the elements, such as food, medical supplies, small tools and similar type cargoes. **This space has the ability to be reconfigured for the carriage of 60 offshore personnel**. Also housed in the main deck cabin are wet room and laundry facilities.

In addition, six cabins accommodating **11 crew**, as well as a mess, galley and bathrooms are provided below deck of vessel.

The vessel is powered by **four Cummins QSK 50 main engines, each rated at 1800hp @ 1900 rpm**.

Propulsion is by way of fixed-pitched propellers, while **two 150 hp electric tunnel bow thrusters** enhance maneuverability for the DP classed vessels. The vessel have a service speed of **21 knots**.

Status Under Construction
 Construction Material Marine Grade Aluminum

PRINCIPAL DIMENSIONS

Platform Monohull
 Length Overall 48.0m
 Length Waterline 46.1m
 Beam 9.5m
 Draft Hull 1.7m
 Draft Max 2.1m
 Depth 4.3m

CAPACITIES

Crew 11
 Deck Area 225sqm
 Fuel 44 600 litres
 Fresh Water 9 000 litres
 Fuel (cargo) 90 600 litres
 Fresh Water (cargo) 91 000 litres

PROPULSION AND PERFORMANCE

Service Speed 21.0 knots
 Maximum Speed 25.0 knots
 Main Engines 4 x Cummins QSK 50
 Installed Power 4 x 1 342kW @ 1 800rpm
 Propulsion 4 x Propellers
 Generators 2 x Cummins QSM 11, 280 ekW

REGULATORY

Flag TBA
Class #1A1 HSLC R1 Service 2 E0
